

R&S E-Drug Request

Patient:

Scan to make your online appointment

Or

Call: 386-562-1052 or 386-777-1478

Location:

R&S United Health Services Medical Laboratory

917 Beville Road

South Daytona, Florida 32119

Still can't find it?

Gray building beside The Babe Cave and Loads of Smile Care

One form of government issued I.D is required on the date of your appointment

What you need to know

Once the drug testing process has begun, you will have up to three hours to void.

In the case of a shy bladder, you will not be permitted to leave the building until you have voided or have exceeded the three hour time period given to provide the urine specimen. If you decide on leaving the building before voiding, you will be given an automatic fail for this drug test and we will need to contact your employment to complete or retake this test.

- You are not allowed to take items with you to the restroom. All items from your pocket will be secured until the process is complete
- You are not allowed to flush the toilet or to wash your hands until the process is complete.
- If the sample is suspected to be tampered with or out of temperature range, you will be asked to provide another observed urine sample.

THANK YOU!
