## Late Fee Policy

A late fee of **\$10** will be applied for each week that a scheduled payment is overdue without prior notice to the office. To avoid late fees, students must notify the office in advance if they anticipate any delays in making a payment. Late fees will accumulate weekly until the payment is made or an arrangement is confirmed with the office. Failure to pay or communicate may result in restricted access to course materials and, ultimately, withholding of certification.

## Early Payment Incentive

Students who pay the full tuition amount at the beginning of the course are eligible for an **early payment incentive**. Upon successful completion of the course, students will receive a **\$25 gift card** or **cash back** as a token of appreciation for their prompt payment.
